SPECS AND FACTS

QUBE

Perfect your listening enjoyment. The rich strokes of a double bass, the wrath full rumble of a storm and the crack of thunder – often it's not until you use a subwoofer that these become a true sonic experience. Getting those long low-frequency sound waves oscillating optimally calls for targeted development of speaker diaphragms, cabinets, electronics and, of course, their optimum interaction. Subwoofers take the strain off your other speakers, enabling them to concentrate fully on the high to low-midrange. Active subwoofers offer additional support via an integrated end stage.

SPECS AND FACTS

QUBE

FACTS QUBE RANGE

- Completely new design; high-gloss finish
- New big high excursion drive units with double-magnet-systems and big voice coils deliver massive bass impact due to their high power capability and mechanical strength (32cm, 26 cm, 22 cm)
- QUBE 12 with XLR connection
- Soft clipping and peak limiter
- Green technology – energy saving
- Sophisticated craftsmanship
- Excellent price / ability ratio
- Reduced flow noise due to different bass reflex construction
