Key Features

The C9 CEN II is a 2-way bass-reflex centre channel speaker using two 4-inch woofers and a 1-inch decoupled tweeter to deliver remarkably accurate sound.

The C9 CEN II is available in Black Ash and White Oak finishes with satin-painted MDF baffles for a premium, contemporary appearance.

Aluminium Phase Plug
A hallmark of Jamo's design, smoother frequency response and better power handling in the upper range of the driver's response.

Hybrid Composition Conical Cone (HCCC) & Long Displacement Surround (LDS)
Controlled damping and linearity, resulting in lower distortion and better transient response.

Anti-Diffraction WaveGuide (ADW) & Tweeter Distortion Reduction (TDR)
Refined trebles and flexible positioning in the room.

Iconic Design & Magnetic Grilles
Jamo's design language masterfully plays with the tension between angular precision and organic curves - where sharp, geometric cabinet lines would suddenly give way to softly rounded baffle edges, creating a unique visual rhythm.

Available Colours and CMF Options

● Black Ash

○ White Oak
