TRIP

Portable Bluetooth handsfree kit that can be clipped to your car's sun visor

Drive safe, drive smart with this portable Bluetooth handsfree kit.

Drivers today are faced with many concerns over safely using a smart phone in the car. State laws, lease agreements and simple operational contribute to the decision making process. The JBL TRIP is designed with all of these factors in mind. HARMAN's exclusive Voice Cancellation technology allows for crystal clear phone calls even with road and wind noise in traffic. Navigation and ADAS apps like iONRaod wirelessly, send safety and turn prompts via Bluetooth; simultaneously, the driver can easily listen to their factory radio for local newscasts or traffic updates. Because the conversation doesn't stop when you park, the TRIP is also designed to be portable. It quickly attaches to the visor in a rental car or can be taken into the hotel room, kitchen or office to continue working. Built with JBL's sound heritage, it's just as comfortable as a Bluetooth speaker as and can keep the music playing for up to 8 hours before a charge.

Features

- It's portable
- Exclusive Patented Noise Cancelling Technology
- Wireless Bluetooth Streaming
- Extended Rechargeable Battery Life
- Navigation and ADAS prompts from smartphone
- Supports Siri, Google Now
