EUPHONIA MS4

The EUPHONIA MS4 (MS for Main Speaker) is the "brother" of the flagship EUPHONIA MS5 - which is the only little thing about the speaker.
Weighing in at 38 kg/84 lbs and standing almost 102 cm/41 inches tall, the EUPHONIA MS4 makes an impressive visual impression. However, it is not until you actually hear it that you understand that they sound even better than they look.
Traditionally, the EUPHONIA MS4 would be called a 2½ way bass reflex speaker with its 2 x 6.5" bass/midrange woofers and the proprietary DALI ribbon/soft dome hybrid tweeter module. However, as the dome and the ribbon do not cover the same frequency range, one could call it a 2½ plus ½ way.

SPECIFICATIONS

Frequency range (+/- 3dB) [Hz]:	33,0 - 28.000,0
Sensitivity (2,83 V/1 m) [dB]:	88,0
Nominal impedance [ohms]:	4
Maximum SPL [dB]:	111,0
Recommended amplifier power [W]:	50,0 - 350,0
Crossover frequencies:	3.000 / (15.000)
Hybrid tweeter module, Super high frequency driv	Ribbon
Hybrid tweeter module, High frequency driver:	Soft textile dome
Low frequency driver:	Wood fibre cone
Enclosure type:	Bass reflex
Bass reflex tuning frequency [Hz]:	31,5
Connection input(s):	Bi-wire
Recommended placement:	Floor
Loudspeaker type:	Front;Rear
Max loudspeaker dimensions incl. base and grille	1020 X 220 X 423
Loudspeaker weight including base and grille [kg]:	38,0
